We announced Saturday that Major Dinkins, State Fish Commissioner and Chief Civil Engineer of the New York, Texas and Mexican Railway company, had got one of his legs badly crused at the knee by a car on the Galveston, Huston and San Antonio road, while attempting to get on a train at Walker Station. As soon as the intelligence was telegraphed here, the company sent a special train to the relief of the Major. On the train were the company's physician, a nurse and Major I. C. Stafford, Major Dinkins' very warm and personal friend. It was found, however, upon reaching Walker Station, that the case was hopeless. In contradiction to what Mr. Barker of Lewiston, Maine, has said, that cotton could not be manufactured successfully and profitably at the South, we copy from a paper published in his own city to show that in the opinion of at least one "Down Easter" the South offers the very best facilities and inducements for manufacturing. The Lewiston (Me.) Gazette gives a flattering testimonial in favor of the South, as a manufacturing section, in the following: In the matter of dividends the Southern mills have the advantage. The Graniteville factory of South Carolina paid a dividend of 20 per cent, last year; the Augusta mills, 15 per cent; and Lawrence, of North Carolina, 15, and so on. The July dividends of forty-five mills in Georgia average over 12 per ct. The Lewiston, Me., mills when quite a young man came to Texas in did not pay a cent of dividend. Water power is much cheaper South than in New England, and in many places it can be obtained for nothing. Labor is much cheaper, averaging \$4.25 a week South, to \$10 per week North. The

Y.: Gentlemen: For eighteen months I suffered intensely with a disease of the kidneys and a torpid liver, and after trying every remedy that I could hear of, besides being under the treatment of some of our ablest physicians, I had about given up my case as hopelessly in-I confess that I had but little faith in its merits or efficacy; but to my great joy and satisfaction, after I had commenced on the second bottle, I continued the use of the medicine until I became completely cured.

GOOD COFFEE.

Everybody wants it, but very few get it, secause most people do not know how to select coffee, or it is spoiled in the roasting or making. To obviate these difficulties has been our study. Thurber's package Coffees are selected by an expert who understands the art of blending various flavors. They are roasted in the most perfect manner (it is impossible to roast well in small quantities), then put in pound packages (in the bean, not ground,) braring our signature as a guarantee of genuineness, and each package contains the Thurber recipe for making good Coffee. We pack two kinds, Thurber's "No. 34," strong and pungent, Thurber's "No. 41," mild and rich. One or the other will suit every taste. They have the three great points, good quality, honest quantity, reasonable price. Ask your Grocer for Thurber's roasted Coffee in pound packages, "No. 34" or "No. 41." Do not be put

off with any other kind-your own palate will tell you what is best. Where persons desire it we also furnish the "Ideal" Coffee-pot, the simplest, best and cheapest coffee-pot in existence. Grocers who sell our Coffee keep them. Ask for descriptive circular.

Respectfully, &c., H. K. & F. B. THURBER & CO., Importers, Wholesale Grocers and Coffee

Ronsters, New York. P. S .- As the largest dealers in food products in the world, we consider it our interest to manufacture only pure and wholesome goods and pack them in a tidy and satisfactory manner. All goods bearing our name are guaranteed to be of superior quality, pure and wholesome, and dealers are authorized to refund the purchase cause for dissatisfaction. It is therefore to the interest of both dealers and consumers to use Thurber's brands.
